In Equity.-The Court of Equity, Chancellor W. D. Johnson presiding, was in session yesterday, but beyond a few orders and matters in course, no business was transacted.

BERKELEY DISTRICT COURT-HON. F. D. RICH-ARDSON PRESIDING.—This Court was opened yesterday at Mount Pleasant, Augustine T. SMYTHE acting as Attorney-General. The juries were organized and some cases tried.

THE MEETING OF THE CHAMBER OF COMMERCE last evening was the occasion of the usual kindly interchange of views upon questions affecting the trade and prosperity of Charleston. Business being disposed of, the meeting adjourned, and the members, gathering around their genial chief, passed a pleasant hour in social intercourse.

TRIFLES.—A horse cart stalled yesterday King street. Causes,—cart too big, and horse too little. Results,-whacking, stamping, shouting, A lady left a black fan yesterday in Conductor

The inside of the Citadel is being repaired. Much energy,- much system, and much money, work many wonders.

THE STEAMSHIP SARAGOSSA.—This fine stea of the Leary Line has been recently refitted and prepared in every respect for the Winter service. She has excellent accommodations for passengers and under the command of her popular and efficient captain, M. B. CROWELL, has become a general favorite with the travelling public. She will sail on Saturday, the 2d proximo, for New York, and parties wishing freight or passage are referred to the agents in this city, Messrs. RAVENEL & Co. A THESTY FREEDMAN.—A colored man, who was

a slave up to the cluse of the war, having the confidence of his former master, was some time time ace advised and assisted to procure a small tract of land, about twenty-five acres in extent, in Christ Church Parish. He worked the place himself with but little assistance, we are informed, and has raised four bales of fine Sea Island Cotton, worth about one dollar per pound, say about one thousand to twelve hundred dollars for the crop, and a sufficiency of vegetables and other market pro. ducts as to enable him to purchase such articles as he may desire, giving him the cotton to clear his debt on the land, to which purpose he is now de-

learn, from the Bennettsville Journal, the death of the above-named well known Methodist minister. Mr. Walsh for years has been one of the foremost members of the South Carolina Conference, beloved and honored throughout its domain. He founded, and for several years was President of the Carolina Female College in Ansonville, N. C. In 1861 he was pastor of Trinity Church in this city. During the past two years he was on the Bennettsville circuit. He has been sick for some time, we learn from the Journal, and died on the 20th instant, leaving a large family, who have the sympathies of a wide circle of friends, both in and out of the Church, to console them in their be-

Ho! FOR THE LAND OF FLOWERS.—It will be seen by a notice in another column, that the fine steamer City Point, Captain S. ADKINS, will resume her trips from this city to Florida, touching at Savannah and all the points on the St. John's

Florida has always been closely connected with Charleston, and the trade between the two points was of considerable importance previous to the was or considerable importance previous to the war. The cotton factors did a large business with that State, and the steamers were always crowded with passengers and freight. This trade has been revived to a considerable extent, and the presence of two steamers on the route is a sufficient indica-tion that it has not decreased. Messrs. RAVENEL & Co., the agents for the City Point, advertise that she will leave on the first of November, and every subsequent Friday night, at 9 o'clock. She will connect with the Georgia Central Bailroad, at Savannah, for Macon, Mobile and New Orleans. The City Point has been recently refitted, and has excellent accommodations for passengers and

NAVAL STORES.—The trade in rosin, spirite of turpentine, &c., the product of the pine tree, is a branch of commerce that should, with but little encouragement, largely develope itself in the business of this city. The pine region tributary to Charleston is extensive and valuable, much of it never having been touched; the labor necessary to produce the marketable commodity is free from produce the marketable commodity is tree from liability to disease, white men being able to perform the work with impunity, and the demand for the various articles very extensive in the markets of the world. With proper facilities the business might be made one of great value to the city. The centre of the trade here is the region near the East and of Calhonn street and vessels are concentre of the trade here is the region near the East end of Oalhoun attest, and vessels are constantly at Marchall's and Venning's whaves taking in cargoes for various parts of the world. Mr. R. T. WALKER, of our city, lately freighted the bark Elgin for London, and Messes. R. Merze & Co. are loading the British bark Artistic, and the British brig Queen of British, for the Bristol Channel, and have just eleared the British brig Bellons for the same destination. The coactwise trade is growing in volume, and will increase with the enlargement of the crop.

EFFECIS OF THE STORM.—The rain storm and high wind of Sunday night caused some little damage to properly in the city. On East Bay and along the exposed streets the cellars were soon illed with water, which will cause the owners some time and trouble to remove. Dan Castello's large sign-board in Meeting street has a decided inclination toward the pavement, and has been shorn of ome of its glories by the rough usage it has experienced. The streets have received a thorough washing, and the dust has been effectually laid for few days, but the excavated lots and open cellars n the burnt district have been transformed into small ponds, which are neither useful or orna-On the Bay, the storm was felt in its full power. The Dictator, which arrived on Sunday night, reported rough weather outside, and the Pilot Boy, which should have left yesterday morn-

ing, was compelled to put back on account of the THROUGH FREIGHT TARIFF ON RICE AND COTTON TO CINCINNATI, LOUISVILLE AND ST. LOUIS.-We are pleased to be able to announce that Messrs, COURTENAY & TRENHOLM, outward freight agents of the Baltimore and Charleston Steamship Com-pany, will give through bills of lading for rice and cotton to the above distant cities, at the following very low rates:

Charleston to Cincinnati, O., per 100 lbs...5c.. Charleston to Louisville, Ky., per 100 lbs...3c.. Charleston to St. Louis, Mo., per 100 lbs...86c. This is certainly the most enterprising and inriting tariff ever offered, and will be greatly appreciated by rice shippers especially, who will find ready sale for our Carolina grain in those populous cities, and by distributing a portion of the crop in that direction, will relieve the New York market,

It may appear strange to have a "Cotton Rate" from Charleston to the Northwest via Baltimore, but statistics show that cotton manufactories hav en largely developed in the last few years in the Northwest, and upon the basis of one and-a-half cents per pound to Cincinnati, as a central distriouting point, we would not be surprised if orders would seek this market. These are good free trade rates, however, and we hope steamships, railroads and shippers will all profit by it.

A PROBABLE VISIT FROM THE BLACK CROOK.—The fame of the Black Crook has gone abroad over the land, and there are few persons who have not heard of the magical scenery and the beautiful danseuses. It has been one of the best paying enterprises of the day, and while it has filled the pockets of the proprietors, it has at the same time benefitted every city where it has been exhibited. New York can boast of possessing the original Crook, but the plays exhibited in other cities are not without their attractive features, and though their Crookedness is not so apparent, they are not without their attractive features, and have been patronized by crowded houses. The citizens of Savannah have for some time been enjoying the Black Crool ensation, but we are happy to learn that the Palnetto City has not been forgotten. The manager of the play has made overtures to the Hibernian Society for the use of their hall, and if successful, will display the wonders of the Black Crook to a Charleston audience. The addition to the Hibernian Hall has been nearly completed, and the Society expect that in two weeks time all of the intended repairs will be finished, and the Hall opened to the public. A number of theatrical managers have already made applications for the use of the Hall, and should the Black Crook fail, there will be some histrionic representation in our new theatre that will revive the recollections of the past.

THE LATE RAIN.—That time-honored individual. the "oldest inhabitant," was unable to recollect a flercer or more continuous rain than the one that leluged our city on Sunday night. The fall of water was unusually heavy, and is estimated by the rain guage of the City Registrar to have been four inches 30-100. This amount of water, added to the spring tide, which was then at its height. caused many of the streets bordering on the rivers to be submerged, and rendered a passage of the stream almost impossible. In the Eastern portion of the city, the low places North of Laurens street were soon under water, Vernon, Inspection, and the terminus of Calhoun streets being completely covered. At the latter point scarcely any dry and was visible from Washington street to the river, and the depth of the flood varied from a few inches to nearly three feet. In other sections of the city, and wherever the tide had any influence, the water covered both the street and the side walk, and in many instances it was necessary to clear the choked grates before it could be carried off by the drains. At the lower portion of Market street, near East Bay, the drains were soon filled, and the water rose to some height. During the Clarkson, New York; Solomon Harvey, Boston; R. | early part of the morning a number of negroes per head.

MAYOR'S COURT.—One of Afric's sable whose understanding was deficient, sought to remedy the evil by appropriating shoe leather beonging to Messrs. D. O'NEIL & Son. Unfortunately for him he was observed and captured, his booty secured, and quarters assigned him where, for fifteen days, he can luxuriate on bread and water, and curse the fickle jade fortune.

Four noble drinkists, who were firm believers in pottled spirits, started out in different sections of the town, but though divided in person, their purposes were one. They were filled with the same high aspirations, and proceeded solemnly to carry out the same programme. The first nip was merely an eye-opener, but the second closed the optic, and left the owner in a muddled state of uncertainty as to his whereabouts. Fortunately there is in our city a class of men who devote their time to such cases, and the immortal quartette were raised from the mud and taken to the Head-Centre of the order. Their sympathies and tastes were in such unison that they were ordered to form a Union League party, and were made to pay the entrance fee of \$5 each immediately.

A colored Zantippe caught her liege lord by the wool, and jerked him about until he yelled murder. His cries alarmed the police, who rescued him from her clutches, and she was fined \$5 for conduct unbecoming a female African. The chocolate dame being out of funds, her husband had to respond, and he left thinking himself an ill-used man, to be besten and then to pay for the bester.

RADICAL DELEGATES TO THE CONVENTION. - Moetings were held last night by the "members of the Union Republican party" in this city, to elect delegates who should put in nomination nine delegates to represent this District in the anticipated Conention. The meetings were but poorly attended, and the proceedings were not characterised by any extreme confusion. A general programme had evidently been prepared, and the machinery worked with gratifying smoothness.

When each meeting had organized, a long circular was read from the State Central Committee, which explained the mode of action that was to be adopted. The principal points were, that the colored people should be industrious and united; that they should denounce any opponent of their party; that they should be secret in all their proings, and work with a will for the exaltation of Radicalism. It was provided that the ballots should be kept secret until the day of voting; that no changes in them should be made; that they should be marked so that those voters who could not read should know that they were voting the right ticket, and that voters should take the whole ticket, as nominated, or none.

After the reading of the circular, the meeting proceeded to business, with the following results: WARD NO. 3—HELD AT HOWARD'S HALL, MEETING

Malaria Everywhere.

Rarely has there been a season as fruitful as this of malarious diseases. Not only on the prairies and in the valleys of the West; not merely in all the old haunts of Fever and Ague and Bilious Remittent Fever have these prostrating diseases been unusually virulent; but they have extended to towns and cities never before infested with them, and have even ascended the mountains and attacked thousands of cople supposed to have been placed, by laws of Nature, above their reach. Hence we are compelled to admit that a fatal element pervades the Universal Air this season, and should at once resort to the only approved pre-ventive of its consequences, HOSTETTER'S STOMACH BITTERS, a tonic so potent, an anti-septic so perfect, an alterative so irresistible, and a stimulant so pure that it redisposing causes of disease. With the confidence that me clothed in incombustible garments might move blazing buildings, the man who arms himsel against malaria with this powerful defensive medicins may walk a fever-scourged district fearless of its insalubrious atmosphere. The intermittents and remittents at pre-sent so general in all parts of the country may be but the forcrunners of a deadlier scourge now on its way West-ward from the far East. Prepare the system with HOS-TETTER'S BITTERS for a successful battle with the nephitic causes of all epidemics. Be wise in time.

No. 203 EAST BAY, Agents for Charleston C. DUCREUX'S PATENT

Horses from Carriages.

For Instantaneous Detachment of

Horses from Carriages.

This ingenious and very useful invention.

which has been patented in the United States, France and England, is now offered by the subscriber to the public, feeling assured they will find it, upon examination, one of the greatest inventions of the age.

Prominent among its advantages are:

First-—The facility with which horses may be harnessed to or unharmessed from a Carriage, also rendering it unnecessary for the person unharmessing to pass between or behind the horses as is customary, thus avoiding any liability of being kicked.

Second—In case of a horse falling, he may be loosed from the carriage in one second, without the driver leaving his seat. It is so simple in its operation that a child can work it.

THEM AND GREATESX—In cases of horses taking fright, becoming unmanagable of running away, the terrible consequences which so frequently follow may be all avoided by this simple application to carriage, as the horses can be loosed from the carriage "in a twinking," and the carriage is quickly and safely stopped.

Mr. O. DUCREUX gave several public exhibitions. The great favor and praise manifested by the public on these occasions, is one of the ordences of a popular appreciation of its merits.

Terms may be known and orders received for applying the patent to carriages, or purchase of State Rights, by addressing to — C. DUCREUX, Patentee.
